Samstag, 18. Juni 2022
10:00 bis 16:30 Uhr*
incl. 30 min. Mittagspause 12:30
incl. je 2 x 10 min Schnellpause

Neurological Diseases

As we know it from Dr. med. Radha Thambirajah, she describes simply but very precisely how the processes and the cycles are and what they cause. She goes into detail about disease patterns and knotty patterns as described above. She gives us points and in which case they are promising or which points should not be used and why. She puts a lot of emphasis on the needling techniques, which we hope will be taught by her again in 2023 in an on-site seminar. How often should a treatment take place and why? Some questions you ask yourself in advance. You can send us all these questions about neurological diseases. Many questions will be included in the seminar, if Radha knows about them in advance. Since the topic of headaches would take a lot of time, it is not included in this 1-day seminar.

TOPICS to be Discussed:

- Headaches and migraine
- Trigeminal neuralgia
- Nervousness, stress and tension
- tremor
- Sleep problems-insomnia, hypersomnia...
- Restless legs syndrome
- Peripheral neuropathy
- Zoster neuralgia
- Parkinson's disease
- Epilepsy
- Scalp (head) acupuncture for –paralysis, tremor, chorea, tinnitus and dizziness
- Whiplash injuries of neck and shoulder-acute and chronic treatment
- Meniere's syndrome
- Carpal tunnel syndrome
- And do you have a wish?

Dr. med.
Radha Thambirajah

graduated from Shanghai Medical College in 1970. She studied Medicine and specialised in Acupuncture. After her internship in China, she returned to Sri Lanka where she established her practice. She founded the Academy of Chinese Acupuncture in Sri Lanka in 1980, and trained doctors and health professionals all over the world. In 1984, she moved to England following the communal problems in Sri Lanka. She opened the Academy in Berlin, and to date, the Academy has trained over 9000 students worldwide. She lectures acupuncture in Europe for over 20 years. She does regular courses for the Forschungsgruppe Akupunktur in Germany, and is a visiting lecturer for number of teaching organisations in Germany, Switzerland, Greece, Poland and Barcelona. Radha practices in Sutton Coldfield, West Midlands. Her first book, 'Energetics in Acupuncture' has been published in German and English. Radha follows the Chinese style of teaching with the 'hands-on' method and lot of practice. Courses are lively and interactive. Learning Acupuncture should be fun and enjoyable and create confidence in the learner!
